

Art Challenge

Be an Appropriation/Recontextualization Artist and base a work inspired in the work of another artist

- Marina Zurkow has recontextualized the work of Japanese artist Hokusai to create The Petroleum Manga.
- The work incorporates the idea of classification and simple drawing techniques from Hokusai's Manga.
- This Art Challenge gives you the opportunity to be an Appropriation/Recontextualization Artist.
 - *choose* an artist or artwork that truly inspires you,
 - *conduct* research into that artist or artwork, and
 - *create* a work of art of any medium and technique

Be ready to explain:

- your work in terms of your interest in your issue,
 - the research you conducted,
 - your choice of materials,
 - the aesthetic decisions you made in assembling them, and
 - the conceptual basis for the work as a whole.
- Please reflect on how it relates to your life and experiences.
